

Go Hiking x Clean Trails 2026-2027

Scout Movement emphasizes on the development of constructive contact with nature. Through the use of nature, scouts not only equip with different wilderness living skills, but also develop their physical, intellectual, emotional, social and spiritual potentials in full due to the immense possibilities that the natural world offers. “Go Hiking” Campaign (The Campaign) has been launched since 2014 for encouraging our scouts to enjoy the nature and appreciate its beauty. Around 14,000 scouts have completed our designated hiking routes under the Campaign since then.

To echo the WOSM Earth Tribe initiative, we incorporate the concepts of “Reduce” and “Reuse” into the Campaign, by encouraging participants to use reusable container/bags and bottle for food and water, and clean up the trails when hike. Scout member who cleans up trash while hiking can be considered as completing the action part of the Plastic Tide Turners Challenge. Let’s join together to create a better world.

All participants could obtain a hiking stick medallion which is specifically designed for each route, after completing the journey and reported to us by just a few simple steps. Moreover, if you could show us your efforts in cleaning trails by designated route, a special design “Clean Trails” souvenir badge will be given to you.

The Campaign details are as follows:

1. Campaign Period: 1 April 2026 to 31 March 2027
2. Eligibility: Cub Scout (for 1 and 2-star route only), Scout, Venture Scout, Rover Scout, Leader or Lay member
